American Cleaning Institute

Background

Established in 1926, the American Cleaning Institute (ACI), formerly The Soap and Detergent Association (SDA), is the Home of the U.S. Cleaning Products Industry[®], representing producers of household, industrial, and institutional cleaning products, their ingredients and finished packaging; oleochemical producers; and chemical distributors to the cleaning product industry.

American Cleaning Institute

Our Vision

 Enhancing health and the quality of life through sustainable cleaning products and practices.

Our Mission

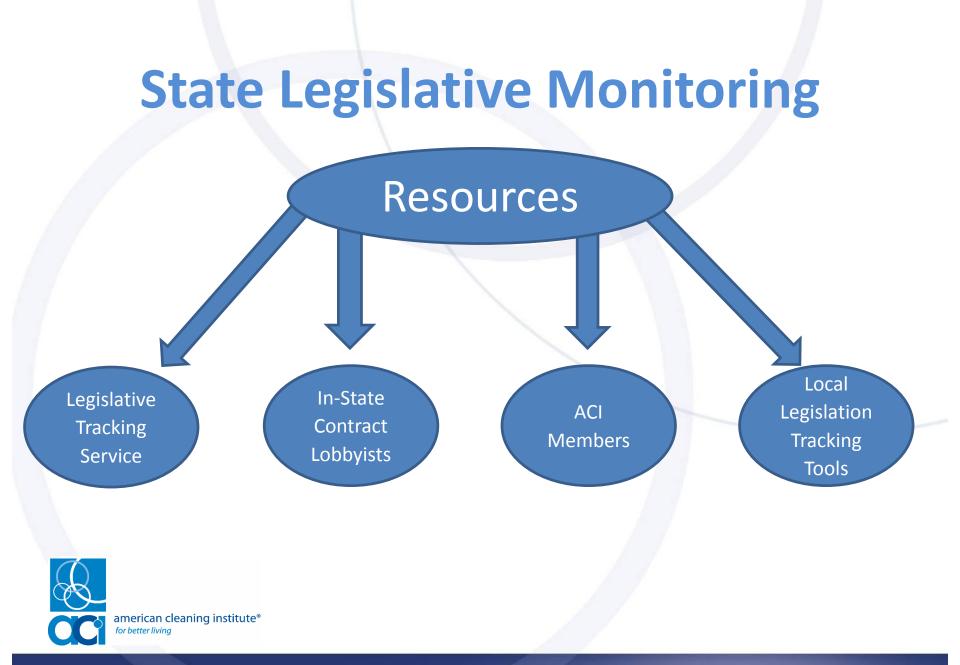

- To support the sustainability of the cleaning product and oleochemical industries, through research, education, outreach and science-based advocacy.
- ACI is dedicated to advancing public understanding of the safety and benefits of cleaning products, and protecting the ability of its members to formulate products that best meet consumer needs.
- ACI serves both its members and the public by developing and sharing information about industry products with the technical community, policy makers, childcare and health professionals, educators, media and consumers.

ACI Government Affairs

- Government Affairs Structure
 - Three Member Team
- Priority State Legislative Issues
 - Chemical Management
 - Environmentally Preferable Procurement (EPP)
 - Extended Producer Responsibility (EPR)
 - Ingredient Communication
- **Operational Strategy**
 - Committees & Task Forces
 - Coalitions
 - Consultants

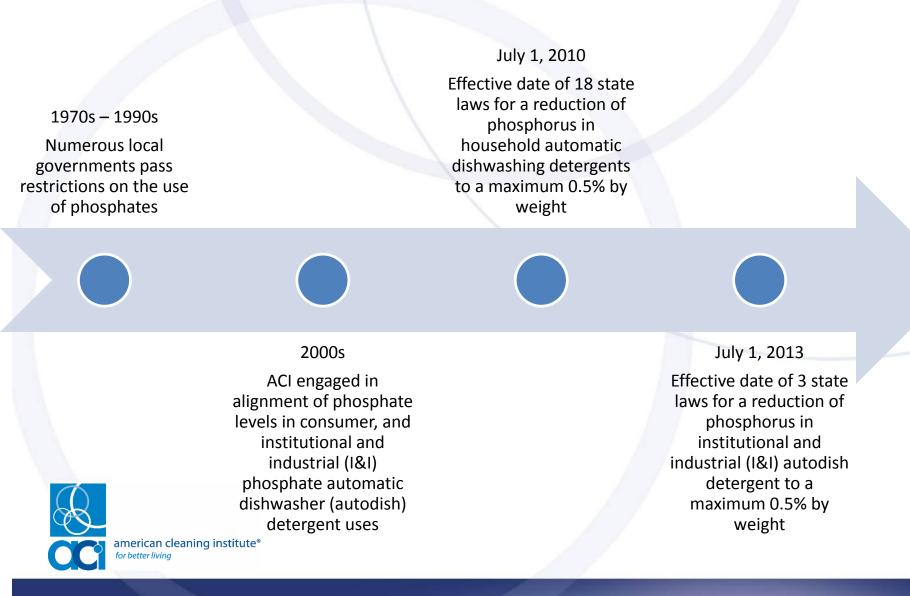

State Legislative Monitoring

Areas We Watch

- Political Landscapes
- Physical Environment
- Policy Groups
- Population Levels/Jurisdiction

Case Study: Phosphate

Case Study: Phosphate State Adoptions

- □ ILLINOIS (SB376) Signed into law on August 13, 2007
- INDIANA (HB 1120) Signed by the governor on March 3, 2008
- MARYLAND (SB766 & HB1131) Signed into law April 24, 2007
- MASSACHUSETTS (SB536) Signed into law on February 21, 2008
- MICHIGAN (Substitute 2 for SB152) Signed into law on January 6, 2009
- MINNESOTA (Original bills SF1109/HF1382; omnibus SF1312) Signed the bill into law on May 25, 2007.
- MONTANA (SB 200) Signed into law April 16, 2009
- NEW HAMPSHIRE (HB 350) Signed into law on July 30, 2009
- **NEW YORK** A. 8914 was signed by Governor Paterson on July 15, 2010

- □ OHIO (SB214) Signed into law June 3, 2008
- OREGON Signed into law on June 11, 2009
- **PENNSYLVANIA** (SB1017) Signed into law on May 13, 2008
- SOUTH CAROLINA (H3470) Signed into law on February 22, 2012
- UTAH (H.B 303) Signed into law on March 14, 2008
- □ VERMONT (SB137) Signed bill into law on May 16, 2007
- VIRGINIA (HB233) Signed into law on February 22, 2008
- **WASHINGTON STATE** (HB2263) Signed into law March 27, 2006
- □ WISCONSIN (AB 281) Signed into law on November 12, 2009

Case Study: Phosphate Municipal Engagement

• Akron, Ohio

- 1970 Municipal code calls for a zero-p standard in dish detergents
 - Code allows for a variance twoyears in length
 - ACI had previously requested and received two-year variances throughout the life of the municipal code
 - Successfully worked with Akron Health Commission and City Council in 2013 to amend the Ordinance and establish the same standards as other states

Database Tips				

- Simply plug in your search term in the "Legislative text" box to find any proposed legislation on that topic.
- You can also perform a similar search for any meeting agenda items under the "Meetings" tab search bar.

Legislative Process

In Chicago, the process by which laws are enacted is governed by the Illinois Revised Statutes, the Municipal Code of Chicago, and the City Council's Rules of Order.

Once a document is drafted and introduced into the City Council, it is assigned to a committee where hearings are conducted to review the proposal.

Following deliberations, the Committee will report out their recommendation to the full City Council. Changes and amendments may occur at any time in the legislative process up to its final consideration by the City Council.

If approved by the full City Council, the legislation becomes law.
