

LORI P. KNOWLES LLB BCL MA LLM

Lori P. Knowles is a bioethics, law and policy consultant located in Boston, USA, and a Professor at the University of Alberta, Canada. She specializes in international comparative law and ethics, particularly as it relates to emerging biotechnologies.

Professor Knowles holds law degrees from Canada, the United Kingdom and the United States, has practiced law in Toronto, Canada and taught at the University of Wisconsin Law and Medical Schools. She is Chair of the Board of Directors of the Institute of Forest Biosciences; is a member of the Government of Alberta's Innovation and Research Council, and is special governmental employee for the U.S. Food and Drug Administration.

Professor Knowles has been a consultant to President Bush's Council on Bioethics; President Clinton's National Bioethics Advisory Commission; Unilever Company; Genome Canada; the Canadian Biotechnology Advisory Committee; the Stem Cell Network of Canada; and the National Academy of Sciences, among others. She has authored numerous publications, and lectures internationally on a wide range of medical law and health-related topics, ranging from GMOs and synthetic biology, to stem cells and reproductive technology.
